Re: Conservation Chemical Company of Illinois
Gary, Indiana
Gary Airport Sewer Project

Mr. Faryan:

Based on the result of our recent discussion, Krikau, Pyles, Rysiewicz & Associates, Inc. (KPR) is hereby submitting two (2) sets of the final Drainage Ditch Closure diagrams (5 sheets in each set) which were prepared by New Generation Consulting on behalf of the Gary Airport. This information is being submitted to fulfill the requirement in the amended AOC. The Gary Airport's construction requirements, which were previously provided to you, are to be considered the current specifications for the project work to be performed. As mentioned, this installation is scheduled to commence either the week of November 5, 2001 or November 12, 2001 pending Rieth-Riley's availability and is expected to take 2-3 weeks to complete.

We look forward to seeing you or your designated representative from Tetra Tech at our initial meeting at the Gary Airport on October 24, 2001 at 1 p.m.

Sincerely,

Krikau, Pyles, Rysiewicz & Associates, Inc.

Thomas J. Rysiewicz, P.E.
Principal
